PRELIMINARY AMENDMENT FOR REISSUE APPLICATION

This Amendment is submitted with an Application for Reissue of U.S. Patent No. 6,305,621 B1 ("Reissue Application"), in accord with 37 C.F.R. 1.171, et seq. By this Amendment, Applicant directs that the following specified changes be made, identified as "Amendments to the Claims." All amendments are made relative to the patent specification, including the claims, and drawings, which are in effect as of the filing date of this Reissue Application. No disclaimers, certificates of correction, or reexamination certificates have been issued with respect to the present Patent. The present Patent is not, and has not been, involved in any prior or concurrent proceedings. Applicant has surrendered the original patent granted for U.S. Patent No. 6,305,621 B1 with the present Reissue Application, in compliance with 37 C.F.R. 1.178.

This Reissue Application is being submitted within two (2) years of the original patent grant, pursuant to 37 C.F.R. § 1.173 and 35 U.S.C. § 251.
